

THE PROGRAM

Your child's vision therapy program is individually designed to meet their unique vision needs. Success of this program is dependent on individual motivation, the support of family members, and continuity of weekly attendance. Therapy is done not to or for, but rather BY the patient. The program involves the arrangement of conditions—utilizing lenses and prisms, instruments and various materials and equipment—to enable the patient to learn more efficient visual performance skills.

Your child's progress will be re-assessed periodically throughout the program.

FEE

Our fees are as follows: (please note that fees are subject to change).

45 minute therapy session: \$144

DISCONTINUING THERAPY

Because staff time and office schedules, as mentioned, are planned in relationship to the therapy schedule, we require a seven day notice should you need to discontinue therapy for any reason.

PROGRESS EVALUATION

A progress visit with the doctor will be scheduled half way through the program to determine progress and reassess needed areas of therapy. For the young patient, it is important that at least one parent/adult be present for this visit. The therapist will let you know the appropriate time to schedule this appointment.

A final progress evaluation will be scheduled at or near the conclusion of therapy. The doctor will conference with you at that time concerning recommended FOLLOW-UP CARE and your CONTINUING VISION CARE PROGRAM. Your vision system is changeable and responsive to stresses. Regular vision care with yearly vision evaluations, (more frequent if your vision problems were complex) benefits you by enabling you to maintain the gains made in therapy, to detect undesirable changes, and to prevent vision problems from developing.

ANNOUNCEMENTS

If we need to cancel your child's therapy session for any reason we will call all numbers you have made available to us as well as send an email if you had given us your email address. In the case of snow causing the office to be closed, there will be an announcement made on our Facebook page. Please "Like" us on Facebook so you can keep up on all of our happenings and announcements. You can find us by searching for "Eye Q Vision Therapy Center".
